MAYES PROPOSED AMENDMENT # 1

DATE PREPARED: July 28, 2009, 10:00 a.m.

COMPANY: Arizona Public Service

AGENDA ITEM NO. U-30

DOCKET NO. E-01345A-09-0255

OPEN MEETING DATE: July 28-29, 2009

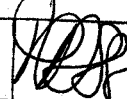

Page 7, line 6, INSERT NEW FINDING OF FACT: "The Commission believes that because the TCA has become a significant source of recovery for transmission related costs, TCA funds are being collected through an adjustor mechanism, and the (infrastructure) projects facilitated by the TCA are a matter of public interest, the Company should prepare a report each year detailing the transmission plant or other costs underlying the TCA reset. This report, which should be docketed along with the Company's Application for a TCA reset, should be broken down by projects and Operation and Maintenance related to those projects, and any other information that would help the Commission and ratepayers determine how and where the TCA funds are spent. The Commission further believes that such a report should be provided to the Commission for the TCA reset that is the subject of this Order."

Page 8, line 4, INSERT New Ordering Paragraph: "IT IS FURTHER ORDERED that APS shall prepare a report each year detailing the transmission plant or other costs underlying the TCA reset and docket the report with the Company's Application for a TCA reset. The report shall be broken down by projects and Operation and Maintenance related to those projects, and any other information that would help the Commission and ratepayers determine how and where the TCA funds are spent. The Commission further believes that such a report for the TCA reset that is the subject of this Order should be submitted to Docket Control within 60 days of the effective date of the Order."

Make all conforming changes.
